### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Harry Ahn on 3/13/07.

The application has been amended as follows:

In the claims:

In claim 1 line 6 –in a sidewall of the hub and—has been inserted between “port” and “in communication”.

In claim 1 line 9 “the port” has been replaced with –the deformable sealing material--.

In claim 16 line 5 –in a sidewall of the hub and—has been inserted between “port” and “in communication”.

In claim 25 line 6 –in a sidewall of the hub and—has been inserted between “port” and “in communication”.

In claim 29 line 3 –in a sidewall of the hub and—has been inserted between “port” and “in communication”.

### ***Allowable Subject Matter***

Claims 1-22 and 25-31 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art fails to teach a catheter device that includes, among all the limitations, a port in a sidewall of the hub and in communication with a lumen of the hub, a deformable sealing material disposed in the port and a cord running from the distal portion of the shaft through the shaft and then through the deformable sealing material.

The prior art most similar is to Slanda et al (USPN 6,699,233). However, Slanda fails to teach the deformable sealing material being disposed in the port which is in a sidewall of the hub.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
